**What is Soup for the Soul?**

The Soup for the Soul program is a not-for-profit group sponsored by St. Andrew's United Church in Brantford that provides food and health services to the most unfortunate and needy in our community. Not only does the program feed over 300 people weekly over two evenings, but it also provides children's programs, literacy, advocacy, and a sense of community for individuals who are the most desperate due to mental, physical or life-skills limitations. This is a wonderful program that does much good both to the givers and receivers. Please help us make the next year a huge success and bring happiness into the lives of many people.
